## Christmas Budget Planner

## Christmas Budget Planner

## How to work out your budget

To try help you stay within your Christmas budget, the Consumer Council has put together this easy to use food and present planner. Use this to keep track of what you are spending your money on. We have left a few blanks in each table for you to add items not on the list.

1. You will need a pen and a calculator.
2. In the 'Estimated' column, write how much you think you will spend next to the items you want to buy. Add the cost of each item together and put this amount in the 'Total' box.
3. In the 'Actual' column, write down how much the item actually cost you. Add the cost of each item together and put this amount in the 'Total' box.
4. Set an overall budget and try not to impulse buy.

## Christmas present list

Use this table to plan who you are buying for, what you are buying them and how much it will cost you.

If the present you buy is below the budget you set, try saving this money to put towards the cost of a present for someone else.
